Funeral Directors

Who am I

I am a website and app developer located in Victoria, Australia. I have been developing websites for upwards of 4 years. I am experienced in a variety of coding languages including: PHP, CSS, Javascript/jQuery to name a few. While also working with other languages such as Python, Lua (Android), Swift (iOS) and VB.net.

I have done work with a range of content management systems such as: WordPress, Drupal and Joomla. In many of the projects I've worked on, I've been tasked to create many custom features from CMS' to WordPress plugin and theme developments; all of which I have developed from scratch.
