Electrical system diagnostics and repairs

Car electrics can be complex and even a small problem can throw your whole system out of whack. With our state-of-the-art diagnostic equipment, we can identify and fix the problem quickly to keep your car running smoothly. Our repair experts are trained to work on all makes and models of cars.

Engine computer systems

We have the expertise and modern tools to keep your car's computer systems in perfect working order. We can fix engine management and electronic fuel injection systems.

Electrical accessories

When these convenient features are not working correctly, it can be a big hassle. Give us a call for help with the following items:

- Power windows
 - Door locks
- Dashboard instruments
 - Immobilisers
 - Reverse camera
 - Cruise control
- Central locking systems
 - Radios
 - 2-way radios

Auto lighting

When you have a light out, it increases your chances of getting in an accident. Whether you need headlights or brake lights replaced, want HID or LED conversion or need a headlight polish, we have the quality parts to keep your auto lighting systems in top shape.

Air conditioning systems

Whether you need a re-gas or have a problem with your compressor, condensers or dryers, trust our auto experts to keep you driving in comfort.
