

Domestic Plumbing Services

Use Inner City Plumbing for All of Your Domestic Plumbing Needs

No matter what domestic plumbing job you require, Inner City Plumbing has the expertise to provide you with an efficient quality plumbing service. We are proud of our reputation and you can rely on Inner City Plumbing every time.

At Inner City Plumbing, we pride ourselves on delivering great customer service. Our staff of plumbers are knowledgeable, friendly, and passionate about helping people solve their plumbing problems. Our fully equipped vans ensure that we have the tools and equipment to perform any job.

We also operate around the clock 24 hours a day, 7 days a week. Call 1300 668 834

We have been in the plumbing business since 1994. Over that time, we have offered high quality plumbing services all throughout Melbourne and the surrounding areas. We always use the most recent plumbing technology and best practices to address your plumbing issue.

Contact us today to learn more about what we can do for you.

Our Domestic Plumbing Services

We offer a wide range of domestic plumbing solutions to fit any situation. Here are some of the most popular services that we offer:

Emergency Plumbing:

Few things are as much of a nuisance as plumbing emergencies. When your drain or sewer is blocked, it can cause an enormous inconvenience for your entire household. Clogged or leaking toilets, burst pipes, and dripping taps can also be a nuisance, and need to be rectified immediately.

At Inner City Plumbing, we understand how much these issues can disrupt your lifestyle. This is why we offer emergency plumbing solutions at anytime, day or night. Our guaranteed one hour service ensures that your plumbing emergency will be fixed quickly, so you can get back to your normal routine.

Contact one of our representatives immediately if you are experiencing a plumbing emergency.

Hot Water Units:

We can repair a range of different hot water units, as well as install new ones. If you are shopping for a new hot water unit, our experienced technicians can even offer you advice on which models are best for your family's unique needs.

Gas Repairs:

Installing a new gas line or a gas appliance is a job that is best left to a professional. Our technicians are highly trained and licensed to safely work with gas products. We can test for gas leaks, repair gas lines and fix a range of different broken gas appliances.

If you suspect a gas leak, be sure to read these safety instructions.

Commercial Plumbing Services

Commercial Plumbing Services in Melbourne to Handle All of Your Needs

At Inner City Plumbing we have the expertise to provide you with an efficient quality plumbing service for all your Commercial requirements. Whether it's maintenance services or other plumbing services listed under our Domestic pages we can attend to any plumbing job in your commercial environment. We are committed to providing high quality service to both domestic and commercial clients. This is why we are open 7 days per week and 24 hours per day. It is also why we have highly trained and experienced plumbers who take pride in fixing our clients' problems. We equip our plumbers with advanced technology, in order to make sure that each and every job is done right.

We have been in this business for over two decades, and have helped many commercial clients in Melbourne throughout the years. We have done plumbing work on a wide range of office buildings, from large to small and old to new. Regardless of the plumbing system at your office, we have the knowledge to service and repair it.

Contact us today and learn more about what our commercial plumbing services can do for you and your business.

Our Commercial Plumbing Services

Just like with our domestic plumbing services, we are able to address emergencies, install hot water units, fix gas leaks, replace roofs and much more. Some of our specific Commercial services are listed below. Click on these links for more information:

Gas Appliances :

We can service a range of gas appliances or install new ones. We can also safely handle gas fitting lines if you need a replacement or a new set installed. For your convenience, we are able to perform any gas work outside of your normal business hours. Keep in mind that all gas appliances should be inspected by a qualified professional every year.

Backflow Prevention :

Backflow problems are one of the most annoying plumbing issues, especially for companies. When the water flows throughout the pipes in the opposite direction, it causes harmful chemicals and contaminants to enter the drinking water. We can install a backflow prevention device which eliminates this problem and keeps the entire office safe. We can also help you decide which exact device is needed as that depends on the location of the property and overall risk of hazard.

Fire Mains – Burst/Leaks :

Fire mains need to be kept in the best possible condition in case they are ever needed to put out a fire. They offer protection for employees and the office building itself. This is why fire hydrants and reels should be checked and repaired often. At Inner City Plumbing, we can install, maintain and service fire mains, hydrants and reels.

If your office needs any of these services, please contact one of our friendly representatives today.
