

Emergency Hot Water and Plumbing Services

Inner City Plumbing Offers Many Options for Hot Water Service

At Inner City Plumbing, we have been helping people all over Melbourne with hot water service for over two decades. If you need hot water service in the greater Melbourne area, be sure to give us a call.

In all aspects of our plumbing we are committed to exceptional customer service. This is why we only use highly knowledgeable plumbers on each and every project. It is also why we use high quality equipment and advanced technology on every job. For your convenience, we are open 24 hours a day and 7 days a week.

Our Hot Water Services

Hot water units are responsible for providing you and your household with hot water. At Inner City Plumbing, our technicians are highly experienced with hot water units and can offer the following services: repair, installation and overall advice.

If your hot water unit is not functioning properly, we can fix it. Our plumbers can fix burst pipes, broken tubes, corroding parts, and debris build up. They can also safely handle more advanced problems, such as fixing the pilot burner, thermocouple, and control valve on a gas hot water unit. We also have the skill and experience to install a brand new hot water unit whether it is electric or gas. Our technicians follow a step by step procedure when installing new hot water units and perform the necessary checks upon completion, to ensure that everything has been done correctly.

If you are shopping for a new hot water unit, we can also assist with this process and make a range of recommendations to best suit you. In order to make the best decision for you and your family, you have to consider many factors such as the running costs, maintenance costs, safety features, and unit capacity.

You also want to consider how many people use hot water daily at your house, how many bathrooms you have, whether your dishwasher uses hot water and much more. Contact us for more information on choosing a hot water unit for your home.
