Locksmith Services

Commercial Locksmiths Melbourne

Toplock Emergency Locksmith Melbourne are providers of emergency locksmithing services only. If you are looking for a commercial locksmith to provide you with non emergency commercial locksmithing services for your business, please call **Toplock Locksmiths** in Northcote on **1300 130 836** or visit their website here <http://www.toplock.net.au/> **Here is some information on the services they provide** For all those who own a business in Melbourne, you know that it's vital to have secure premises for you and your staff to work in. It's also a legal requirement. **Toplock Locksmiths(1300 130 836)** install **Restricted Master Key Systems** which control who can access the premises. These require Restricted keys which as the installer, only **Toplock Locksmiths(1300 130 836)** can cut €“ these cannot be cut by anyone else. You control who gets a key and who doesn't. **Toplock Locksmiths(1300 130 836)** install **Commercial Grade Fire Regulated Locks and Door Closers** to exterior and interior doors according to the required Health and Safety Regulations. The installation of these locks ensures that in an emergency everyone gets out safely. **Toplock Locksmiths(1300 130 836)** are more than happy to explain the function of any lock, e.g., fire door lock. This promotes safety and awareness amongst staff. We will carry out a Security and Fire Safety Audit to determine your requirements. **Toplock Locksmiths(1300 130 836)** supply and install CCTV, Security Alarms, Access Control and Window Grilles. Cameras installed in select locations will guarantee high security in your office, warehouse and car park. We also supply, install and service Fire rated Safes and Filing Cabinets. We operate in the Melbourne CBD and surrounding suburbs.

Restricted Master Key Systems

Restricted Master Key Systems. Offering a High Security, In Line Key System, allowing for multiple key users and key cutting security. This means only we can cut keys for you and only with your authorisation, so you control access to your business premises.
