

Locksmith Services Pty Ltd- Locksmith Services - Frankston

Commercial Locksmith Products & Services

Commercial locks are generally a heavier duty lock than domestic locks. Locksmith Services Pty Ltd has the fully trained staff to carry out commercial locksmith services.

There is also a greater range of locking functions available commercially than domestically, They are designed to meet the rigors of high-traffic commercial, institutional, industrial and government applications. The strength and versatility of the locks make them ideal for use in offices, schools, hospitals, hotels and other facilities requiring durable and reliable security. No matter the size or nature of your company, make no mistake. At any time, someone could break into your property and seriously setback your company by stealing and or vandalizing.

Lockwood Mortice Locks

Lockwood Mortice locks are renowned for their durability and functionality in the toughest environments. Lockwood is the first choice of architects and end users whose main criteria are durability and high security

Brava Metro EV8000 - Fire rated door set

BRAVA Metro EV8000 series commercial grade entrance leverset with external clutching lever.

Successfully tested up to 4 hours (depending on type of doorset) on fire door assemblies in accordance with Australian Standard AS 1905.1- 2005, Part 1: Fire Resistant Doorsets.

Kaba E logic Access Control

The C-Lever mechatronic door fitting excels in high user friendliness, elegant design and compact dimensions. The electronics are integrated in the fitting and recognise keys, ID cards or other media without contact. If a valid medium is read by the electronics, a motor engages the handle coupling and the door can be opened for five seconds.

With TimePro functions a time period for permanently open doors can be programmed, if eg. a door should be accessible without identification.

In addition, the Legic® chip allows other applications such as time attendance, cash free payment and registration. The Kaba C-Lever truly is the clever door solution.

Lockwood Digital 530 DX

The Lockwood Digital DX Locksets provide a mechanical method of keyless entry.

For extra security when under forced attack, the inbuilt clutching mechanism allows the outside knob to rotate without operating or damaging the lock.

The factory set 5 digit code is easily changed to any 4, 5 or 6 digit code using the code changing kit provided with each lock.

Lockwood Digital DX Locksets are designed to control access into commercial areas, especially when frequent combination changes are needed to maintain security.

As the digital lockset utilizes mechanical operation, electrical wiring is not required. Selected locksets combined with digital access pads provide keyless entry.
