

John James Gutter Cleaning- Gutter Cleaners - Rockingham

Why You Need a Gutter Guard

Other than the regular home maintenance, a clogged gutter is always on top of the list and a common problem for home owners. Unattended clogged gutters can lead to further damages and will hurt your pocket.

Gutter Guards are important to prevent clogged gutters due to rain and wind. It is a preventive tool to avoid a bad case of stagnant water which can cause rust and debris build which can later become a hub of harmful insects and rodents.

Other than the regular home maintenance, a clogged gutter is always on top of the list and a common problem for home owners. Unattended clogged gutters can lead to further damages and will hurt your pocket.

Effective First Line of Defense - Gutter Cleaning

Your gutter system will be more efficient if you incorporate gutter or leaf guard and can save you a great deal of money. You can take advantage of its benefits on a long term basis.

- ✓ **It prevents leaves, seeds, bird droppings, twigs and dirt from going inside your gutter**
- ✓ **It is a protection system that will keep environmental debris from forming nasty clogs**
- ✓ **It reduces the risk of further house damages like basement flooding, mould build up and rotting foundation**
- ✓ **Less maintenance and regular cleaning for your gutters**

A gutter guard will help you in cutting down regular cleaning costs. It is still recommended to have the gutters cleaned at least once in a while.
