

Commercial

Grant Martin Plumbing Service has a range of commercial customers, many of whom keep coming back to us again and again for our quality service guarantee.

Our customer list includes shopping centres, gyms, food outlets, car dealerships and hospitals, to name just a few, located from the Gold Coast right through to the Sunshine Coast.

Our equipment uses the latest technology, such as drain cameras with closed circuit television, to find out the cause of blockages inside pipes and deal with them quickly and effectively.

We are a reliable and trusted partner, and the proof is in our repeat business – much of our commercial work is the result of word of mouth or our commercial customers moving on to new jobs and workplaces but taking Grant Martin Plumbing Services with them as their plumber of choice.
