CARPET AND FLOOR CLEANING

Of all the items in your home, your carpets and floors are the ones that sustain the most wear and tear and they are, unfortunately, the most susceptible to spillages and staining. At Floor Clean, we are experts in restoring your dirty, damaged or stained carpet and, with our industry knowledge, special products and professional cleaning equipment, we achieve truly unbelievable results. We can breathe new life into your carpets, floors and tiles and make them look as good as they day you bought them!

UPHOLSTERY CLEANING

Upholstered items can be amongst the most treasured, yet expensive, parts of any home. When dealing with the cleaning of upholstery, it's vital that you know exactly what you are doing. Each and every type of fabric, material or covering has its own unique properties, strengths and weaknesses, and Floor Clean knows them all. We are the team to call when your beloved upholstery is looking tired or has suffered a nightmare stain. We know all the secrets and special techniques necessary to clean your material and have it back to its very best in no time.

HARD FLOOR CLEANING

Many people choose hard flooring, such as laminated wood, because they believe it to be easy to clean. Most give their hard floor the occasional mop or scrub with a cloth and are happy with the results, but choose Floor Clean to come and clean you hard floor and you'll be amazed at the results we can achieve. Try us and see the difference between a clean floor and a 'Floor Clean' floor!
