

About Maid & Spade Home Cleaning Services

Maid & Spade Services came about because we recognized that the Gold Coast has a large community of people who have worked hard all their lives and now enjoy retirement in a beautiful part of Australia. There is also a generation of young families with both parents working full-time who have to choose between house chores or spending precious little time with their children. It is Maid & Spade's mission to make life easier for busy families, bring the conveniences of the outside world to incapacitated and housebound individuals and to make everything else spic and span.
