FIX IT
Computer Repairs & Services

About Home Computer Tech

Home Computer Tech is your "go-to-guy" when it comes to anything regarding your computer in Brisbane. Located on the Southside of Brisbane, I come to your house to fix your computer in the comfort of your own home.
Let me help you set up your new computer or laptop,configure your network, speed up your computer and trouble shoot any errors as well as install and show you how to use any peripherals that you have brought such as scanners web cameras or more.

Previously I worked for the largest IT company in the world (IBM) as ahelp desk operator fixing peoples problems over the phone, so I have plenty of experience as a computer hardware and software technician . My rates unlike most technicians are extremley competitive for someone to come to your house to fix your computer. Other technicians charge over $120 per hour.

Home Computer Tech provides professional service with haste at a reasonable rate. Let us remove your adware, viruses, annoying pop-ups and computer errors even old files to improve your computer's performance. I can assure you of industry standard support, skills and response. Make your computer feel like brand new by allowing us to diagnose and repair it. Even choose to upgrade and get extra out of your PC or laptop with reasonable prices on upgrade or replacement parts that we can provide! Call us today @ (07) 3155 2051 or contact Home Computer Tech here
