

Aussie Mortgage Brokers

Why Aussie?

We started this company to find a better way for every Australian to find the right home loan and get into their dream home.

It used to be to get a home loan, you had to walk into the bank, cross your fingers and hope you'd walk out with a good rate. Australians didn't know they could do better. And whilst some people accepted this was the way it had to be, we didn't.

So we challenged the banks to give Australia a better deal. And when we believe in something, we go for it. They weren't happy, but as soon as one bank broke ranks, the rest followed. And the home lending landscape in the country changed forever.

Today, over 1000 talented, experienced and passionate brokers stand by our side, sharing their collective vision and drive to secure the right deal for all Australians.

Whether it's scanning across almost three thousand home loans on the market, or holding a large panel of lenders to account, we won't be deterred from the case. The more options that appear in the home loan market, the more important it is to have the right people by your side.

We're proud of our legacy.

Over recent years, we've taken out the Australian Banking & Finance Magazine's 'Mortgage Broker of the Year' eight times. We've also won 'The Adviser's Top Brokerage' award four years running (2013-2016) and the Australian Broking Awards 'Major Brokerage of the Year – Franchise' three years running (2014-2016). Simply more proof that when it comes to getting Australians the right loan, we can't and simply won't be beaten.

We've been working on our home loans for 25 years now – finding innovative ways to give Australians a better deal on one of life's most important purchases. So if you're considering an Aussie Home Loan, you've already made a smart move.

On this page, you'll find a simple break down of our featured loans and rates – as well as some helpful information for different types of buyers.

From here, you can start looking into the finer details of an Aussie Home Loan. You might even decide to chat with a broker about your plans, and how we can help you achieve them.
