

Ovidio Orthoses

WE CARE FOR YOUR FEET

When you first wear your pair of Ovidio Medical Grade footwear or Orthoses, our service to you has only just begun. Ovidio products are designed to be adjustable and repairable. Your feet record an impression of the pressure exerted on the removable inner-soles. This, together with your comments, allows us to adjust shoes and orthoses to further relieve chronic pain.

METHODS OF TREATMENT

A variety of Treatments are on the market today but after nearly 50 years experience in footwear, feet, Orthoses and health I have found the following methods to be the most effective, safe, low cost Compared with conventional treatment) with 97% chronic pain sufferers healed. Ailments that we treat include such things as:- Foot problems, high arches, weak ankles, pronation of the ankles, flat feet, heel pain, (fasciitis)(heel spurs) curved toes (hammer toes) corns, callouses, bunions, bunionettes, leg length difference, deformity of the legs or feet, hard cracked skin, perspiration, foot odour, knock knees, bowed legs, hip pain, sore back, neck and shoulder pain, dull aches and pain all over the body, tiredness and other lower limb disorders.

Method

Standard fitting OVIDIO Orthoses (inserts) is a good start especially for those of you who are far away from Tassie and are unable to visit us. These Orthoses are often all

a person needs for their minor condition. If further and more personal custom treatment is required, this first step is very valuable in showing us what to do next. The cost for the standard fitting Orthoses including postage is \$55.00. After wearing the Orthoses for about 3 weeks, return them to us and we will do the necessary adjustments/completion to improve your health. The cost will be from \$35.00 including return postage.
