

## Buying a Lawn Mower

A beautiful garden is a place where you feel closer to nature and gives a refreshed feeling. One way to keep them well-trimmed is to maintain your lawn by an efficient lawn mower that can make your lawn cutting less stressful and less time-consuming.

### Types of Lawn Mower

So what are the types of lawn mower and lawn cutting tools to choose from.

- Walk-behind self-propelled mowers
- Gas push mower
- Lawn tractors
- Garden tractors
- Riding mowers
- Walk-behind electric mowers

### What are the factors to consider?

#### Size Of Lawn

Larger yards and lawns require riding types of mower because self-push mower can be tiring to use.

#### Horsepower Size

Bigger engine will consume more energy and gas and can be costly for you

### **Sloping Or Level Lawn**

Pay attention that it is not easy to push a mower uphill but the self-propelled lawn mower will be easier.

Having the perfect lawn mower does not only provide you the comfort in maintaining your lawn but it also makes your efforts of maintaining the lawn more rewarding.
