You would also gain priceless experience regarding door & window security locks.

Jarrod Hopkins spent many years working in some of Melbourne's highest crime suburbs as a locksmith, in that time he attended many sites to address a wide range of home security issues, & repaired damaged doors after break-ins. In that time I honed his locksmith skills & increased his knowledge, covering various residential & commercial locksmith issues & applications.

We have now opened our own locksmith service, for the Mornington Peninsula, Frankston & Carrum downs.
