What to Do During Emergency Lock Out

Emergency lock out, it's happened to all of us at some point. You close the door & forget the keys are not in your pocket, or you lose your keys. Whatever the reason, don't worry because we have got you covered. Our mobile locksmith service has all the required equipment

Consider the following emergency lock out scenario:

Option 1: Call a relative with a spare key to come and open the door? At 2am you won't be welcomed!

Option 2: Calling the police or waking up your neighbour (if they have a spare key? Well the police aren't the right ones to assist you in that Scenario, and your neighbour won't want to be woken up in the middle of the night.

Option 3: *Isn't it better to call a professional (excellent locksmiths) who'll have you inside within the hour?*

Other possible emergency lock out scenarios include:

You put your key in the lock of your door, but it doesn't work. Either the lock is damaged or the key has become too worn or bent. Or maybe the key breaks and gets stuck in the lock. It's even possible to find yourself locked IN the house, because someone has locked the deadbolts from the outside and you can't find a spare key.
