

WELCOME TO SMARTEC AUSTRALIA

Smartec Australia is specializing in air conditioning and refrigeration service, repair, maintenance, supply and installation including cooling and ventilation systems across the Melbourne Victoria metropolitan area. At Smartec Australia, we provide you with fast and professional service to ensure you get the most out of your air conditioning. We deal with a wide range of air conditioner needs in Melbourne Victoria.

Air conditioners provide homes and offices with cooling comfort. When well-maintained, they also clean the air inside your home. Smartec Australia aims to help clients save money while enjoying the benefits of air conditioning systems through quality service.

With a team of technicians on the road and with extensive experience in the air conditioning service, our preventative maintenance service is available on all makes and models of air-conditioning. This helps to prevent the possibility of breakdown when you need it most and offering improved health benefits. Part of our service is to make sure you enjoy your air conditioner for a long time. We are dedicated to providing our clients with services that exceed their expectations.

If you are looking for a small split air conditioning system for one room in your home, a ducted air conditioning system for the whole house, a design for a large luxury home or a solution for your commercial workplace. We also deal with evaporate and reverse cycle air conditioning. Smartec Australia can provide you with the professional advice you are looking for.

Make the most out of your air conditioner with our proper maintenance, installation and repairs. Smartec Australia guarantees all projects are delivered according to our client's requests. We provide you with quality air conditioner services in Melbourne Victoria because we believe you deserve only the best.
