Kitchen Renovations

Houzz started with a house.

When founders Adi and Alon renovated their home, they started the way these projects often do: with a tall stack of magazines and referrals for home professionals from people they knew. But after those piles of torn out pages failed to make their dream a reality, they felt stuck. There had to be a better way.

So they built Houzz. A place to browse and save beautiful home photos. A place to find the right design and construction professionals. A place to connect with others who have been there too. Houzz started as a side project but has become a community of more than 40 million homeowners, home design enthusiasts and home improvement professionals—across the country and around the world.

Whether you are starting a complete kitchen renovation or just looking for the perfect bedside table, the Houzz community of homeowners and professionals is here to help. And when you are ready to start your project, Houzz is the best way to get inspired, discover products and to find and collaborate with the perfect architect, designer or contractor.

Join our Family

Join Houzz and help revolutionise the global home renovation and design industry. Houzz connects millions of homeowners, home design enthusiasts and home improvement professionals around the world and empowers them with technology. Our entrepreneurial culture and warm family atmosphere make life at Houzz rewarding and fun.

Reach New Clients

Houzz connects businesses with local homeowners who are serious about hiring the right home professionals for their projects. 74% of Houzzers plan to build, renovate or redecorate in the next two years.

Showcase Your Business

With Houzz, professionals can showcase their work and provide insight into their values, working style and approach through portfolio photos, client reviews, and direct community interaction.

Work Smarter

Houzz enables professionals to share ideas and collaborate with clients in the cloud. Houzz helps pros discover the latest products, stay up to date on trends and efficiently manage their web presence.
