

Lightning Locksmiths

Locksmith Services

About

Steve Howard founded Lightning Locksmiths in 1990. Steve worked as a General Locksmith since February 1977, and he completed an extensive apprenticeship in 1983. With attention to detail Steve prides himself in delivering a job that will meet if not exceed your expectations. As the principal he expects and receives the same attention to detail with all those that work for him. All our staff are fully trained and licensed. Lightning Locksmiths is proud of the fact that we are constantly researching and updating skills to make sure we remain at the forefront of current technology.

We offer a 24-hour on site [emergency](#) service so if you find yourself in a problem that you consider urgent we will be able to help you with a minimum of inconvenience. Whatever you may require in relation to security we have the experience, knowledge and expertise, if we are not able to help you we will find someone who can.

So whatever your requirements in relation to security, we will be able to help.

On a lighter side the principal of the business Steve Howard has a passion for Car Racing. He races and builds his own cars and is a member of both the 2-litre Sports Sedans club and the Toyota Car Club of Australia. As treasurer of the 2 litre Sports Sedans Steve is happy for any person to contact him who may be interested in exploring Car Racing. His involvement in automobiles have made him an extremely interested in automotive problems in relation to security, this is a highly technical area in which he specialises in.

Residential Locksmith

Lightning Locksmiths are fully qualified to service all your lock needs at your home. Our services include installation, repair, supply and altering of **residential locks** in Australia. If we cannot service your lock or if it is needing replacement we can find you the closest matching item from one of our many suppliers.

Installation and Repair of:

- Deadlocks
- Deadlatches
- Knob or Lever Locks
- Mortise Locks
- Window Locks
- Security Door Locks
- Sliding Door Locks
- Many brands including Abus, Brava, Carbine, Gainsborough, Lockwood and Whitco...

Locked out? No problem! Our technicians can open most locks without causing any damage, and if damaged we can repair whilst on site.

Lost your keys? Worried about someone entering your home with the lost keys? Most locks can be altered by one of our technicians, this process changes the lock so a completely different key works the lock, we then supply you with new keys and the old key can no longer be used.

Lock broken or not working? All of our technicians are experienced in the service and repair of most locks available in Australia. The majority of locks can be repaired, however if yours cannot be repaired we can replace it to fix your problem.

Tired of carrying around too many keys? Lightning Locksmiths can in most cases alter locks so your entire house, or even multiple houses are opened by a single key. If your locks are not compatible with such a system we can offer you replacement locks or parts to make it happen.

Lightning Locksmiths technicians are available if you have any **residential lock** problem. We can offer emergency after hours service.
