Euphoric Utopia History

Euphoric Utopia started off as a way for my wife and I to pay a little of our way through our studies In Aromatherapy. We combined our expiries and skills of past work and studies. We learnt off each other to form a business that has grown into a service that is needed by our surrounding local area and is now rapidly spreading to further areas.

After the completion of our Aroma' studies we decided that instead of just starting up, just a [Aromatherapy Service](#), we would incorporate it into our present business. With us starting on a low budget we are starting to get the work we need to expand and up grade enabling us to provide the best service to our clients.

Teric has work in property maintenance from a young age of 11 when he would go out with this father on jobs, [lawn mowing Service](#) and [garden care Service](#). He combined his year 12 certificate with studies in Horticulture. After spending some time in the Army as a combat engineer. Teric worked in various companies including the very highly prestige, Double Bay Nursery & Property Maintenance and A1 Sunup Property Maintenance, giving him the skills and knowledge he now uses in his everyday Business.

Rayleen after leaving High School studied Animal Care and worked in her brother's butchers shop behind the scene looking after the day-to-day cleaning of the store. Rayleen would also help out with her auntie in her [Cleaning Service](#) Business, cleaning local government buildings. Rayleen commitment to family saw that she would be committed to keeping the up keep of their own lawns, gardens and house work.

In 2011 Teric and Rayleen studied at Blue Mountains TAFE together. They got married and started up Euphoric Utopia – Home Services in Lithgow NSW 2790. And now with years of experiences, skills and knowledge combined, together they form the best partnership to "Clean the Blue Mountains & Central West, inside & out.
