

# Olde English Tessellated Floor Tiles

## Tilers

### ABOUT US

We are specialising in tessellated floor tiles, continuous patterns, octagon and dot's, special patterns, the most requested 100 x 100 square with internal toorak panels, and many more designs, plus we can reproduce any old pattern.

We have been in this industry for more than twenty five years, we have practically worked in partnership with almost all the big companies in Australia, (not that there are that many) our job was designing cutting and calculating the amount of tiles needed for any pattern.

We are certain that the service we offer it's secure and can make you feel safe with us.

WE PROVIDE A SERVICE AND WE LOVE OUR JOB.  
WE CARE FOR ANY JOB, BIG OR SMALL. EACH CLIENT IS LIKE THE ONLY ONE.  
WE WOULDN'T BE HERE OTHERWISE.

### SERVICES

This unique range of tiles comes in a such huge selection of designs, most recreated using many individual pieces, making it very difficult to know what you are getting or how to lay it.

The service we provide consist in giving you a detailed list of what you need to order in the tile shop, for the area you need to tile, this includes choosing the right pattern of tessellated floor tiles, or reproducing the same existing pattern, we also advise you on the best tile to use, there are many on the market but we know which one last longer with zero maintenance.

Tiling job is very important too and must be done by a specialists, some customers call the tiler artist.

The detailed list mentioned above will be very specific, single pieces needed for the job with amounts, from strips for the border to the smallest triangle.

So when you place the order can compare the amount calculated in the shop. Some customers don't even say anything to the sales person, and when it's time to place the order, our written list may come out.
