

Select Cleaning Home Cleaners

The SelectCleaning team can deliver a consistent high-quality clean at a cost effective price. That's because we won't be supplying just a normal cleaner, we will supply you with a SelectCleaning Franchisee owner. The key difference here is that they own their business, so they really do care about the quality they deliver and are trained to delight their customers. Nobody does a better job than "the owner" and because we have skillfully trained them in the "SelectCleaning way", you can be reassured that they will deliver a cleaning job you'll be delighted with.

Of course our regional office team will also be available on an ongoing basis to ensure that the promises we make are delivered on.

Have you got better things you'd rather be doing than stressing over the housework?

Let SelectCleaning take care of the cleaning of your home for you and get your home looking just the way you like it. We believe that a tidy and spotless house that looks great helps reduce stress and increases your productivity — and at SelectCleaning we can achieve this with a minimum of disruption and a degree of care that may surprise you. You can be assured that you will receive a reliable service that will leave your house looking great every time.

 **Peace of mind**

One of the biggest hurdles to overcome when deciding to hire a cleaner is the issue of security. To guarantee your peace of mind, and eliminate any concerns you may have regarding both the safety of your possessions and the respect of your privacy, our cleaners have all been through an intensive selection process and security check to ensure they are honest and reliable.

 **You can still be fussy**

We aim to exceed expectations in every way, so we provide you with a communication book to record any specific instructions or issues for us to be aware of while cleaning your home. This helps us monitor the quality of our service to you on a regular basis and enables us to provide you with the very best result possible — your home beautifully cleaned, just the way you like it.

 We do a better job

SelectCleaning invests time to ensure your cleaner understands different surface types and the most efficient and effective way to hygienically take care of them. We also take steps to reduce the negative impact on our environment from petrochemicals and solvents — we don't pretend to be perfect, but we do our best by reviewing procedures and choosing the most appropriate products.
