

Blazing Pressure Cleaning

Home Cleaners

Residential Properties:

We all regularly wash our cars, so why shouldn't our biggest investment, our homes, receive the same standard upkeep. With the use of the "correct" pressure for cleaning, coupled with the temperature of our water not only can we keep your house, driveway, paths, outdoor areas, pools etc. looking fresh and clean, but also free of unhealthy mould, mildew and fungal growth and the slip hazards associated with them.

Commercial Businesses:

The business world is cut throat, and keeping your shopfront, surgery, workshop, office front, hotel, or any commercial property front as well as any adjoining paths, outdoor area, service areas or car parks looking fresh, clean and inviting is one of the quickest, easiest and cheapest ways to give your clients the very best first impression.

Industrial Sites:

Here at Blazing Pressure Cleaning, we are dedicated to assist as many businesses in as many Industries as we possibly can. The diverse application of our equipment's capabilities continues to excite us. How this may assist your business in the services or products you provide is our primary goal. As varied as brick cleaning, earthmoving hot wash, dairies, chicken sheds, machinery housings, mining equipment, mining structures etc. Our diesel run engine and boiler are full mine spec., which allows us to operate on controlled work sites.

Pricing

Whether it is a residential, commercial or an industrial place requiring the Blazing Pressure Cleaning touch, we can help you out! Give us a call and let us help you get your paths, outdoor areas, concrete and bricks clean and looking like new!

What We Do

Environmentally friendly hot water pressure cleaning.

Call Luke today on 0447 050 522 to discuss your job and organise a quote.

Dirt, grime, oil, moss and mould can all leave your driveways and outdoor areas looking old and undesirable. The weather can leave your shop front and signage looking battered and grotty. Blazing Pressure Cleaning can have them looking brand new by using the best modern technology to clean them without harming your surfaces.

We believe in achieving the best possible clean without risking any damage caused by using ultra-high pressure or hazardous cleaning products. Blazing Pressure Cleaning uses state-of-the-art technology to combine high temperature water with the pressure cleaning process.

This means much less pressure is required to clean and remove grime.

If you want your house or business looking clean and new, we offer an environmentally friendly hot water pressure cleaning. Servicing Newcastle, Lake Macquarie, Port Stephens and the Hunter Valley.

The Hot Water Pressure Cleaning Specialists

We believe that one of the major key points of what sets us apart is our hot water. Blazing Pressure Cleaning has invested significantly in the very best pressure cleaning equipment money can buy. We have used our industry knowledge to setup our custom made truck. We believe it is the ideal setup for us to effectively and efficiently service our customers with their pressure cleaning needs throughout Newcastle and Hunter region. All contained in our one small truck is our diesel run pump and boiler, surface cleaner, hose reels, first aid kit, fire extinguisher, a 1200L water tank and all the pressure cleaning accessories we need. This equipment is not only effective but extremely reliable.

What we offer!

Our commitment to you is to offer the best available service at competitive prices!
A Local Business for Local People!

Blazing Pressure Cleaning is a local Newcastle company who is dedicated to providing local people, businesses and industries with the very best in pressure cleaning and associated services. We love this city, so rest assured that we will treat your property as if it were our own!

Friendly, Committed Service

We pride ourselves on not only the job we do, but the way we treat people, and how much we value their business. We are available to assist our customers with whatever pressure cleaning they may require, at a time that's convenient to them, weekday or weekend, day or night.

Environmentally Friendly Cleaning

We don't use toxins or cleaners that are harmful to the environment. Just clean, hot water! Our specialised equipment uses the power of hot water to do most of the work, and as such there is minimal waste to worry about and everything is left much cleaner!

Fully Insured and WHS Compliant

We believe in safety, both for ourselves and our clients. As such, we are a fully insured and a WHS Compliant company. We don't take short-cuts. We get the job done right and safely. If we are on your place of work, we will also take the time to ensure we follow your WHS protocols.
