## Hair Salons

### About Us

Sharon's Hair & Beauty was established in 1982, progressing from a single owner-operator beauty salon to become Casino's first and only convenient 'one-stop' beauty salon, incorporating all aspects of hair, nails, beauty and massage. We aim to exceed your expectations.

We continuously strive to improve and stay abreast of all current trends by attending regular up-to-date training, seminars and trade expos.

At Sharon's Hair & Beauty we are committed to offering friendly, personalised yet affordable service through a team of highly skilled and creative professionals. We take into consideration your individual needs, wishes and desires, to give you the ultimate hair and beauty experience.

### History

Sharon's Hair & Beauty began as Casino's first fully independent beauty salon, established by Sharon Yates in 1982 and is still operating 34 years later. The salon started out in modest premises, but with expanding clientele who were looking for a multi-service salon, Sharon took the opportunity to purchase the hairdressing salon next door approximately 18 years ago. From there the business has continued to grow, employing experienced staff offering a variety of skills.

Now Sharon's Hair & Beauty is truly Casino's only 'one-stop beauty care experience', catering for all aspects of hair, beauty, nails and massage. Our qualified, friendly, passionate stylists, therapists and technicians will deliver an experience tailored to fulfil all of your needs.

### Meet the Team

Sharon's Hair & Beauty employs a friendly team of professionals committed to pampering their clients and making them feel renewed and refreshed.

### Sharon Yates - Owner/Proprietor

I started Sharon's Hair & Beauty on my 18 birthday, not dreaming it would still be going strong today. I am a qualified beauty therapist with more than 30 years experience within the beauty industry and I have seen many changes in this time. My specialities include reshaping eyebrows, specialised facial treatments, electrolysis and spray tanning. I am also nationally accredited to perform IPL and laser treatments. I love making a difference to our clients, not only in how they feel about themselves when they are in the salon, but also when they leave us until their next appointment. I am in the Salon Tuesday through to Thursday.

## Rose Duffy - Senior Hairstylist

Hairdressing for 25 years, Rose recently moved to Coraki with her family after owning her own business in Bonalbo for 14 years. Rose loves all aspects of hairdressing and specialises in style cuts, colouring, perms and up styles. Rose has been a team member since October 2015. In salon Tuesday to Friday.

## Bree Johnston - Beauty Therapist

Graduating Beauty Therapist of the year 2015, Bree joined the team in November 2015. Bree is passionate about skin and assisting clients in achieving their skin goals. Bree also performs all beauty treatments including massage (Swedish and hot stone). Bree lives in Kyogle with her family. In salon Tuesday to Friday.

## Painfree IPL Hair Removal, IPL Skin Rejuvenation & Laser Tattoo Removal

As well as offering the latest technology in IPL - "Pain-Free" Hair Removal, known as Super Hair Removal, and IPL Skin Rejuvenation, Sharon's Hair & Beauty specialises in reduction and removal of spider veins, pigmentation and age spots.

Sharon Yates is also nationally accredited in Laser Safety and IPL and Laser Therapy.

## IPL Skin Rejuvenation

IPL photorejuvenation can treat a wide variety of skin problems. It can be used to remove red spots or diffuse redness and can help with acne or rosacea. IPL treatments can also help to smooth uneven skin texture, close large pores, and eliminate wrinkles by stimulating collagen growth.

## What is SHR?

SHR stands for Super Hair Removal, it's a step forward in permanent hair reduction. It is the most advanced way of removing unwanted hair. SHR is faster than traditional IPL and Laser, it's safer and its pain free in comparison.

## How does SHR work?

How SHR works, is a revolutionary approach, rather than bombarding your skin with high amounts of Joules (energy), SHR fires multiple shots at low Joules, in doing so it gently heats the hair follicle to the heat needed and the most you will feel is warmth and a tingling sensation. SHR also utilises In-Motion technology, where the hand piece is always in motion over the skin. SHR is suitable for blonde hair types, which has not been able to be treated successfully with IPL until now!

Is SHR suitable for all skin types?

SHR is suitable for all skin types, even tanner's, this is achievable because of the technology and techniques utilised. Unlike traditional Laser and IPL, SHR can be had all year round without having to hide from the sun.

How many treatments are needed?

To fully treat the area you may require 6-10 treatments at four week intervals. A four week regime is important to maintain so that the SHR treatments get the hair at its four week re-growth. Near the end of the treatments 6-8 week intervals will be needed to finish off your course.

Is there any pain?

Absolutely pain free, this is achieved by SHR technology and In-Motion techniques, to give you a pain free treatment.
