Once you arrive at the Pegasus Park horse riding ranch we will introduce you to a horse that suits your riding abilities. Our horses are well trained and all rides and lessons are well supervised. We hope you have a great and safe time with our lovely horses.

The lesson plan:

You will learn how to setup, care and mount your horse. You will also learn the commands to interact with your horse and finally you will put the concepts you learnt into practice with a hinterland ride on your assigned horse. Don't worry if this seems like a lot to take in whilst trying to learn to ride, our dedicated and experienced instructors will be there to assist you.

Once riders are ready it is time to check out the Byron hinterlands on horse back. The ride takes you along the Byron creek, where if you are lucky you can even see the platypus, as well as other notable locals like the turtles, ducks and fish.

The group then makes its way to the top of Gordon's Hill. Here we take photos of the ride and the fantastic views of Byron hinterland. You can check out some examples on our [Facebook](#) page. We want you to have your own memories too so we also take photos with your cameras as well.

For the more experienced:

If you already have some experience riding horses and just want to get out and about in the fantastic hinterland behind the ranch, check out our [Private Lessons](#), which cater more for intermediate and advanced level riders.
