Highly recommended. After being locked out from my apartment and calling around a few locksmiths after hours, Larry was the most pleasant to speak with, and even after initially being unable to help as I was outside his usual area.

Nice bloke, good service and reasonable pricing. Larry responded on the same day I requested a quote, unlike other locksmiths who requested a myriad of photos. Got all my locks re-keyed and he fixed issues with my existing lock holes.

I agree with all the other reviews....in fact Larry was one of the best tradesmen I've ever dealt with. Does what he promises, when he promises and does a great job to boot.

Was looking for a locksmith - he was working out of his van. I asked him to fix a deadbolt latch. He did it in about 3 minutes and for free! I gave him a tenner because he was amazing.

Thanks Larry! Professional, quick (so quick at picking my lock that I'm thinking I should get some secure locks!) and well priced!

Well... it turns out I got locked out AGAIN... and Larry to the rescue it was! Thanks again (literally) Larry!!!

Called up asking if Larry did automotive work. Larry was extremely friendly and and helpful and although he didn't do automotive cuts he put me onto someone that did.

Absolutely amazing service. Leaping Larry came out to Brunswick in a flash, spot on service with a smile, and never a job too big or small. Would highly recommend. Best locksmith I've ever used.
