

MATTRESS DOCTOR AUSTRALIA

Mattress Doctor Australia- Mattress Cleaning Services – Sydney

Our Mattress Cleaning Clients' Testimonials

Dear Sir, Three weeks have now passed after your treatment of my mattress, the source of our night time irritation has passed away, your service is highly recommended as a restful night's sleep can be enjoyed. I was horrified when I found out we had dust mites and bed bugs living in our bedding, the red blotches and restricted breathing was of great concern. Thank you and I must compliment your employees for being so courteous.

Paul Watson

Dear Sir, I am a satisfied customer of yours, you may remember me I had such a difficult time with bed bugs I had to sleep on my table for ten days prior to attending my flat. I am writing to you to let you know that since your treatment of my mattresses and the sterilising of the room with your ozone I have not had any bites through the night, Thank you for your treatment and I have taken it on myself to recommend your service to several other people in my neighbourhood. Please let me know if I can be of any assistance to your as the process really does work. Thank you from the bottom of my heart.

Ciaco Renoso

Hello Mattress Doctor, Having a background in microbiology I was more interested in your process to clean mattresses with Ozone, your operators was very informative as they treated our house and I was impressed with the remote control application from outside the room, your staff was very informative explaining the system and showing me the ozone monitoring equipment. What impressed me most was the secondary application inside the mattress to prevent re-occurrence of the infestation of bugs and mites. All very scientific and impressive, someone has done a lot of research to produce the results you have proven to me.
