

## Tree Management And Mulch Services Tree Felling - Guildford West

### Our Tree Felling Services

#### Hedge trimming

We do Hedge shaping, such as significantly reducing the height or width of a hedge.

Hedge service frequency depends on the type of plant to be trimmed. Slow growing hedges are normally trimmed once per year.

Private hedges are trimmed 3 times per year. On your preferred schedule, TMMS will trim your hedge, pick up and bag the debris.

#### Tree Pruning

Branches that overhang houses, obstruct power lines and pathways need to be pruned before they become hazardous.

Tree pruning is carried out when branches have become dangerous.

Tree Management and Mulch Services (TMMS) has the experience and knowledge to provide you with quality pruning services.

### **Stump grinding and Removal**

TMMS, having the right knowledge, experience, and equipment, you can trust us to remove stumps from your property.

Stumps are unsightly and a known source for attracting pests such as termites and other diseases.

TMMS provides professional services to get rid of the stump and stump grinding. Our specialized tools are used to ensure stumps are removed efficiently and in a timely manner.

### **Gutter Cleaning**

To ensure proper draining of rain water, TMMS is here with skills and tools necessary to go up the roof and remove the rubbish from blocked gutters.

## **Land Clearing**

At TMMS, we have a wide range of experience providing services in this field for private home owners, developers as well as building contractors. Customers satisfaction is guaranteed by providing an efficient clearing and leaving the site clean and tidy ready for development.

## **Arborist Report**

Our qualified arborist provides details and comprehensive reports that can help you to speed up your permit approval process, get on with your landscaping, construction and developmental plans.
