

# CET Stringer

## Racquet Restringers

With 30 years of experience as players and stringers, we deliver pro level quality and consistency in racquet restrings for all players - beginners to elite.

We receive and issue most racquets between 4 PM and 8 PM and service within 24 hours.

Our services include:

~Over-night and weekend racquet restringing

~Racquet matching (in weight and balance)

~Re-gripping

We keep an extensive database of all our clients' racquets

The Premium Racquet Service in Melbourne's East!

We have been involved in Tennis on competitive levels, coaching and racquet stringing since 1981 and also string Squash and Badminton racquets.

Initially working out of Germany, we now offer our services in Melbourne.

Since starting in the field of Racquet services we have restrung racquets for clubs, shops, amateurs and professionals. We have also been the official stringers at a variety of Australian Money Tournaments.

With a background in engineering we have a deep understanding of the complex mechanics of tennis racquets and string bed technology.

*Racquet Stringing:*

All customer re-string data is logged in a database, this ensures that every restring is consistent and according to your records.

We string on a precise modern electronic machine with 6 point frame support.

With our modern equipment we can measure stringbed stiffness (DT) and match racquet strings.

## **We offer Tennis Racquet Customization:**

- Changes to Grip Size
- Modification of Racquet Weight
- Change of Balance Point
- Matching of multiple racquets to the same specifications
- 

### **General Terms & Conditions of Service**

CET Stringer Racquet Stringing & Racquet Customizing (CET) does warrant expert stringing service labor and materials against manufacturing fault for a period of 30 days.

1. This excludes damages to the racquet during the stringing process in case of:
  - a. Fake or copy racquets
  - b. Racquets which had prior breaks, fractures or damage
  - c. Racquets which have previously been strung not in accordance with the manufacturer specified stringing instructions and patterns
  - d. Requests to string racquets outside the recommended tension ranges as per racquet manufacturer
  - e. Racquets with damaged grommets
  - f. Racquets older than 10 years.
- 2. This excludes damages to the string if string is customer supplied.
