

Goodway Tyres

Tyre Retailers

New tyre experts

With our large variety of brands, you can find exactly what you're looking for. Whether you want high-end performance tyres for a sleek sports car or something more durable for a utility truck, we have what you need.

Tyre maintenance

From wheel balancing and alignment to puncture repair and tyre replacement, we have your back. We are a full-service shop offering one stop service for all your tyre maintenance needs. For a free tyre safety inspection, visit us today.

Other Services

We are a comprehensive auto shop. Our services include brake replacement and maintenance, 30-point safety checks, log book services and a number of major and minor mechanical repairs. No matter what you need, our technicians will take care of you.

Your local experts

At Goodway Tyres, we believe in giving you the best tyre buying experience in North Melbourne. That's why all of our mechanics are fully trained and qualified to give you advice on tyre brands, perform your service quickly and reliably and help you with any other auto needs.

New tyres are our specialty

Don't get your tyres from just anywhere. Come to Goodway Tyres, where our tyre professionals will help you find the perfect wheels to fit your car and your budget. Our shop is stocked with a variety of tyres from many popular

brands, including BFGoodrich, Bridgestone, Continental, Dunlop, Falken, Goodyear, Hankook, Kelly, Kumho, Michelin, Pirelli and Toyo.

Our highly-qualified mechanics are here to help

Wheel alignments

and balancing

To ensure your vehicle performs its best, and your tyres last as long as possible, make sure to schedule regular maintenance for your tyres including balancing and alignment. We offer all the services you need so your car is ready to drive in the fast lane.

Tyre repair and plugging

Even with careful driving and regular maintenance, you can sometimes find yourself with a leak in your tyre. When that happens, we are ready to assist you with our convenient puncture repair service.

Brake replacement

and servicing

Keeping your brakes maintained is a critical part of driving safely on the road. It's also much less expensive to replace your brake pads and resurface the rotors periodically than it is to have to replace everything because you waited too long. Save time by giving us a call today.

Safety checks

We offer a full 30-point safety check to get your vehicle ready to pass inspections for registration. If we find something that needs to be repaired during the check, we will fix it as soon as possible. Call us with any questions or to make an appointment.

Batteries

Does your car struggle to start? Has it been longer than three years since you replaced your battery? Come in today for a battery check from our experts. We will check the battery, the charging system and everything else. Before your next road trip, be sure to pay us a visit.

Mechanical repairs

Whether you need an old part replaced or a complete engine overhaul after an accident, our professionals can handle it. There is no problem too big or too small for our technicians. We carry a large range of parts so you won't have to wait very long. If there is something that you need that we don't have in stock, we'll order it for you at no extra cost to you.

Car Air Conditioning and Cooling Systems

When you're stuck in a traffic jam in the middle summer, you rely on your car's cooling system to keep you comfortable. However, if you've noticed that it's taking longer to cool your car or if the air is still a little warm, your system may need a repair. Don't wait until your AC completely goes out. Come in for an inspection today.

Electrical repairs

From your cooling and heating system to your car starter, the electric components in your vehicle control everything. With advances in technology, it's getting harder and harder to diagnose a problem without the proper training and equipment. Fixing something small right away could save you lots of time and money in the future. Our experts will quickly diagnose and fix any electrical issues so you can be back on the road in no time.

Log book services

Your vehicle needs regular maintenance and services such as oil changes. This not only helps your car run safely and smoothly, but also ensures that your vehicle's warranty remains valid. Keeping your log book current can also make it easier to sell your car in the future since buyers want to make sure that everything has been taken care of. Our technicians will make sure your log book is up to date.

Best of both worlds

Do you want the flexibility, savings and value of an independent dealer, but also a large variety of high quality tyre brands to choose from? Goodway Tyres is the place you need to be. We offer the most accurate advice and competitive prices around. Our new management has over 10 years of experience in the tyre industry, so you can rest easy and know you are in good, knowledgeable hands.

Qualified to help you with whatever you need

Because customer service is our number one priority, we invest in the latest technology and continued staff training so you get the best products and the best services available. No matter your tyre needs, we should be your first call.
