### Motor Repairs & Mechanics

#### TKM DIESEL PTY LTD: Servicing the Hume Freeway, specialising in Heavy Vehicle Road Transport

TKM DIESEL PTY LTD is a company owned and operated by Tom Mort which has grown considerably since he decided to work for himself in 2004. Immediately after finishing his apprenticeship with a local Benalla mechanic, Tom Mort started his own business, under his own name; with just his Ute and a tool box.

As his client base grew he realised he needed a more specialised set up and upgraded to a leased premises in Samaria Road. Over the years Tom has hired a variety of staff members on the workshop floor and in administration duties and since September 2010, his family run company has worked from 92 Saleyards Road, Benalla; a Mort owned workshop and yard, custom built to specifications. The facilities at Saleyards Rd, opened in April 2009, include B-Double turning areas, a two bay drive through shed, eco-friendly wash bay and a full length pit. We also have weekly parts deliveries from local dealerships and can source and organise parts from a range of outlets across Australia.

The business involves a number of people with a variety of qualifications and abilities, working to ensure fast, efficient and productive service at a competitive rate. We are continually developing our services and facilities to provide the best possible service to all clients and feedback is welcome and appreciated at any time.
