

# Home Safety Tips

**There are many things you can do to make your home as safe as possible. Here are some general home safety tips to keep your home and family safe from harm.**

- Create an illusion that someone is home. You can put timers in your lights or have a family member stay at your home when you leave for a long period of time.
- Inspect your locks and replace any locks that doesn't work immediately.
- A peephole is important to see who is outside before letting them in.
- Never leave any spare keys that are too obvious like doormats, mailboxes or doorframe.
- Keep garage doors shut.
- Don't make the inside of your home visible to outsiders, make sure the blinds and drapes are closed
- Keep a safe at home to store our jewelries, electronics and important documents, a safe deposit at a local bank is a better option
- When you will be away, ask your neighbors or family member to collect your mail, news papers or any deliveries so it won't give signal to outsiders that no one is home.
